

Eliza

Geometry in Motion

Designed in 2014

Shown in Gloss White with Gloss White Blades

Designed by Chicago architect Stephen Katz in 2013, the wet location Eliza blends a beautiful technically derived form with superior function and movement. The unique blade shape is designed to maximise air movement at the outer edge of the blade. The result is more efficient air velocity rings, less blade drag and a greater motor optimisation. Equally important is Eliza's stationary visual statement which combines modern utility with minimalist geometry. Constructed of cast aluminium and heavy stamped steel, the Eliza has a limited lifetime warranty.

- 56"/142cm diameter all weather, ABS gloss white blades
- Energy efficient, ultra-quiet, six-speed, reversible DC motor.
- Constructed of cast aluminium and heavy stamped steel.
- Wet Location Rated. Not recommended for salt water/ocean front applications.
- Limited Lifetime Warranty
- Standard equipment:
 - One 10"/25cm downrod. (18"/ 46cm, 36"/ 91cm & 72"/183cm downrods also available)
 - Vaulted ceiling mount canopy for up to 30 degrees
 - Reverse on six speed, hand-held and wall-mountable remote control.

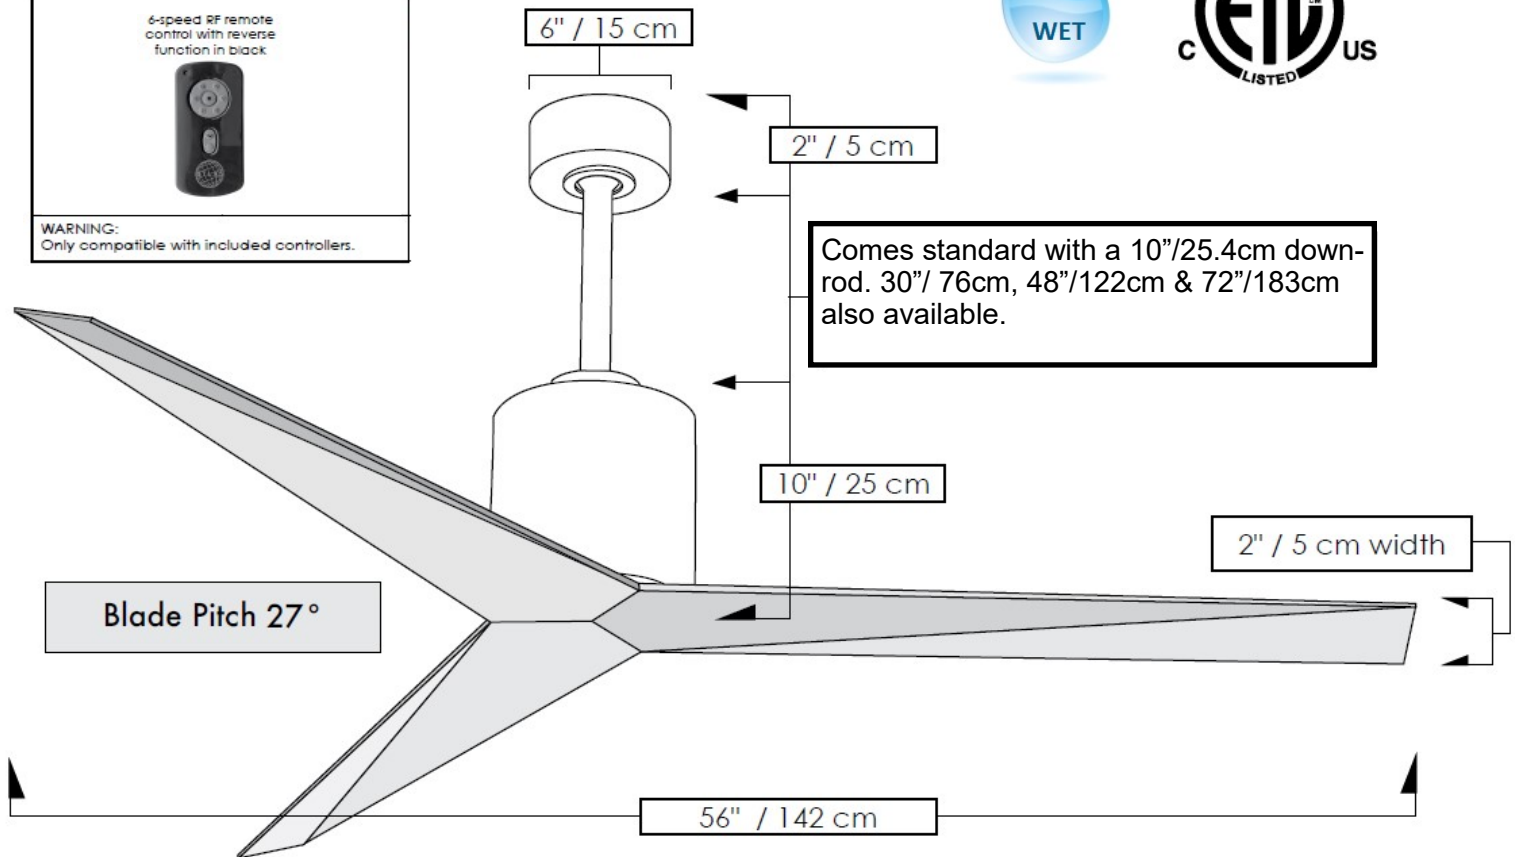

Eliza

STANDARD EQUIPMENT

- One downrod of 10 inches / 25.4cm
- Vaulted ceiling canopy for up to 30°
- 6-speed RF remote control with reverse function in black

WARNING:
Only compatible with included controllers.

FAN SPECIFICATIONS	
Fan Diameter	56" / 142cm
Overall Drop	12"/30cm plus downrod length
Fan Weight	7.7kgs
RPM (Low / High)	52 / 172
CMH (Low / High)	2774 / 9241
Watts (High)	33.13
Environments	Wet location for all finishes All weather blade system Not coastal, saltwater or chlorine compatible
